NOTIFICATIONS.

Port St. George, October 19, 1931.

No. 481.—In exercise of the powers conferred by section 51 of the *Madras Motor Vehicle Act, 1914* (VIII of 1914), the Governor in Council is pleased to make the following rules to regulate the use of motor vehicles, let or hired for hire in public places within the municipal limits of the City of Madras and its vicinity.

MADRAS MOTOR-CAR RULES, 1931.

1. For the purpose of these rules a "motor-car" or "motor-veh" shall mean a motor vehicle which is let or hired within the municipal limits of the City of Madras and which has seating accommodation for not more than seven passengers including the driver and whom does not exceed two tons in weight when laden.

2. Such of the *Madras Motor Vehicle Rules, 1914*, as are not inconsistent with the provisions of these rules shall apply to motor vehicles let or hired for hire.

3. No motor vehicle shall be let or hired for hire within the municipal limits of the City of Madras without an owner's permit granted by the Commissioner of Police, Madras.

4. This permit shall be in form Taxi A set forth in the first schedule to these rules. The fee for such permit shall be Rs. 5. Subject to rule 5 such permit shall remain in force from the date of issue until the first March following. Such permit shall not be transferable except under the sanction of the Commissioner and/or thereof.

This permit shall be in force for the period required by rule 30 of the *Madras Motor Vehicle Rules, 1914*.

5. The rules for the hire or detention of a motor vehicle let or hired for hire shall be not more than the rules prescribed in the second schedule attached to these rules provided that nothing in these rules shall prevent the owner of a motor-car from entering into a contract to let the motor-car for periods of not less than a full day, or for trips of more than ten miles beyond the municipal limits of Madras at charges agreed upon between him and the hire.

6. Every motor vehicle intended to be used as a motor-car shall be taken to the office of the Commissioner of Police for inspection and shall be liable to examination at such times as the Commissioner of Police may prescribe and the owner's permit may be suspended or cancelled by him if the vehicle does not comply with the requirements of these rules or if the *Madras Motor Vehicle Rules, 1914*, or under the order thereof has committed any breach of these rules.

7. A permit to drive a motor-car, shall be in form Taxi B set forth in Schedule I attached to these rules.

8. No motor-car shall be driven by any person not holding a permit in the above form granted by the Commissioner of Police, Madras.

9. (1) Such permit shall be granted only to a person who holds an ordinary licence to drive, which is for the time being in force.

(2) The fee for such permit shall be Rs. 2 and it shall be in force from the date of issue until the first March following, but shall cease to be in force if cancelled or suspended by the Commissioner of Police or if the holder's ordinary licence to drive is suspended or cancelled or expires.

10. An applicant for a taxi driver's permit shall satisfy the Commissioner of Police that he is in all respects a fit person to be the driver of a motor-car and that he is acquainted with the principal points and streets in Madras and has a thorough knowledge of the prescribed rules for hire. A taxi driver's permit may be cancelled or suspended by the Commissioner of Police for any breach of these rules or of the *Madras Motor Vehicle Rules, 1914*, or if the holder should be guilty of misconduct of such a nature as to make his retention of such a permit undesirable.

11. (1) Every motor-car shall be fitted with a taximeter of an approved style to indicate to the hire the fare chargeable.

(2) Every such taximeter shall be sealed with the seal of the Commissioner of Police or with a mark approved by him.

(3) Any owner, driver, attendant or other person who shall break or tamper in any way with the seal, place it on the taximeter or who shall, with intent to defraud, tamper with the taximeter or the driving mechanism thereof shall be deemed to have committed a breach of these rules.

(4) No motor-car shall ply for hire unless the seals on the taximeter are intact.

12. (1) Every taximeter shall be tested by the Commissioner of Police or by such officer as he may from time to time designate in this behalf.

(2) Before a taximeter is produced for inspection, the holder the wires and the wires for the test seals shall be provided by the firm fitting the meter so that all that need be done after the test shall be to clip on the test seal and remove them with the testing tong.

(3) Every taximeter shall be subjected to a practical road test of five miles for each of the distance scales and a time test for detection charges for not less than half an hour.

(4) Every taximeter which passes the test shall be sealed in such a manner that it cannot be opened or tampered with without removing the seals.

13. A taximeter shall be fixed to and operated from a non-driving wheel.

14. A Jack road test shall be made by direction of the Commissioner of Police each time the motor or transmission gearing is removed or repaired.

Provided that a taximeter shall at any time be submitted to the Commissioner of Police for the purpose of being tested under his direction.

15. All brake or steering components secured with bolts shall have such bolts secured with nuts, the nuts to be locked or pinned.

16. It shall be the duty of the owner to see that all parts of the mechanism of the cab are periodically inspected and kept in proper working order and a register in a form to be prescribed by the Commissioner of Police shall be kept of such inspections. This register shall be open to inspection at any time by the Commissioner of Police or by any person duly authorized by him. Any failure to maintain this register or produce it when called for by lawful authority shall be deemed to be a breach of this rule.

17. The machinery of every motor-cab shall be so constructed that no undue noise or vibration is caused and shall be maintained in such condition at all times.

18. The seating facilities shall be maintained in such a condition as not to be loose or cause any undue rattling noise.

19. Every motor-cab shall have a light so fixed as to illuminate the taximeter at night.

20. Every closed motor-cab shall be provided with a means of communication between passenger and driver.

21. Provision shall be made for the conveyance of a reasonable quantity of luggage and for securing it.

22. The cushions of the seats shall be covered and stuffed with suitable material to be approved by the Commissioner of Police or by such officer as shall be empowered by him.

23. The doors, windows, seats, roof, springs, wheels, cushions, lamps, panels, etc., and all furniture and appointments of a motor-cab shall be in proper order and repair, the paint and varnish in good condition and the inside perfectly clean. The floor shall be covered with a mat of rubber, wax or other suitable material.

24. The Commissioner of Police may prohibit the use of a motor-cab which is in his opinion unfit to be allowed until such time as the defects are remedied to his satisfaction.

25. (1) The carrying capacities of all motor-cabs shall be fixed by the licensing officer.

(2) The number of persons and weight of luggage which a taxi-cab is licensed to carry shall be indicated on a conspicuous part of the vehicle.

(3) The number of the motor vehicle running as a taxi-cab shall be shown in a prominent position both at the front and the rear of the vehicle in such manner as shall be prescribed by the licensing authority.

26. (1) The driver of a motor-cab shall wear in a conspicuous place on his left breast a numbered badge supplied to him by the Commissioner of Police.

(2) The driver of a motor-cab shall surrender such badge as his permit being suspended or cancelled or becoming time expired.

(3) Any driver who shall lose or fail to return such badge shall be liable to pay a charge to be fixed by the Commissioner of Police.

Badges to replace lost badges shall be issued on payment.

(4) A driver shall not in any circumstances lend or transfer his permit or badge.

27. A driver shall, within one week, report to the Commissioner of Police any change of residence.

28. Every driver or attendant of a motor-cab shall be properly dressed in clean uniform of the descriptive to be approved by the Commissioner of Police.

29. The drivers at motor-cabs stands shall observe the following rules:—

(1) The drivers of the first two motor-cabs on the stand must stay beside their cabs and must be ready to be hired at once by any person provided that a hire waiting to hire any particular cab on the stand may do so.

(2) All motor-cabs on the stand must carry an accurate meter.

(3) No motor-cab engaged for some future time shall remain on the stand unless the driver is willing to accept any intermediate hiring that may be offered.

(4) No disabled motor-cab shall remain on the stand unless such disbursement is strictly temporary, and can be and is remedied at once.

30. (1) Every taximeter shall be fixed with an indicator or handle in the form of a flag on which shall be printed the words 'for hire'. The taximeter shall be so constructed that when the indicator is raised the taximeter shall be out of action. Such indicator shall be so placed as to be clearly visible to any person outside of and in front of the vehicle and to the driver when inside.

(2) The vertical position shall indicate that the vehicle is available for hire and no driver shall without reasonable excuse refuse to accept a hire when the indicator is in a vertical position.

31. The driver of every motor-cab shall, as soon as he is hired and no sooner, set the taximeter in motion, and upon the termination of the hiring shall immediately stop the meter. If he neglects or fails to do so, he shall be deemed to have committed a breach of this rule. But if a motor-cab is called from a garage or a stand to take up a passenger at any place less

than 500 yards from the garage or stand, the taximeter shall not be set in motion until the motor-cab shall arrive at such place and be ready to take up the passenger. Provided that in the event of a motor-cab whilst being unable to proceed from any mechanical derangement or tyre failure, either temporarily or otherwise, the driver shall at once stop the mechanism of the taximeter as against the hire, and shall not restart the same until such time as the defect is remedied.

32. The driver shall, in the absence of reasonable cause to the contrary, proceed to the destination named by the hiree by the shortest and quickest route.

33. No driver of a motor-cab shall—

- (a) be drunk during his employment;
- (b) make use of insulting or abusive language or gestures;
- (c) stand elsewhere than at some stand or other place appointed for the purpose or in the case of being hired, in or upon any public street or road, or place;
- (d) refuse to give way (when he reasonably and conveniently may do so) to any other vehicle;
- (e) wilfully obstruct or hinder the driver of any other motor-cab in taking up or setting down any person into or from such other motor-cab;
- (f) wrongfully prevent, or intend to prevent, the driver of any other motor-cab from being hired;
- (g) demand more than the proper fare to which he is legally entitled;
- (h) before he has been discharged by the hiree, desert from the hiring;
- (i) ply for hire with any motor-cab which is at the time valid for public use; or
- (j) stand in order to attract the attention of the public or of a possible hiree or, for any other reason act in such a way as to cause inconvenience or annoyance to the public.

34. In the absence of an enforceable contract to the contrary, no driver shall refuse or fail to pay the legal fare for the hire of a motor-cab, nor shall he refuse to supply his correct name and address to the driver in case of dispute in connection with the fare.

No. 1170.—Under section 209 of the Madras Land Revenue Act, 1920, the following draft of a rule which the Local Government propose to make under sections 157 (1) and 159 (2) (a) of the said Act is published for general information:—

Notice is hereby given that any suggestion or representation which any person may desire to make regarding the draft rule will be considered if submitted within six weeks from the date of publication of this notification. None received after that period will be considered.

DRAFT RULE.

Transmissions shall be supplementary in the areas (Gulam and Alia taluqa) under the jurisdiction of the Salem taluk board in the Salem District.

No. 1171.—Under section 205 of the Madras District Municipalities Act, 1920, the Government hereby publish for general information the following draft of the rules which it is proposed to make under section 191 of the said Act. Notice is hereby given that any suggestion or representation which any person may desire to make in respect of the draft rules will be considered if submitted within six weeks from the date of publication of this notification. None received after that date will be considered.

DRAFT RULES UNDER SECTION 191 OF THE MADRAS DISTRICT MUNICIPALITIES ACT, 1920.

Section A.

Rules for building sites under section 191 (1) and (3).

1. No piece of land shall be used as a building site if the Council considers that the site is dangerous or that it is dangerous to construct a building thereon.
2. If the building is to abut on a street, the site shall be of such a shape that the face of the building can be made parallel to the line of the street, or so nearly parallel to such line as the Council may permit.
3. No person shall build on a site within 30 feet of a tank, unless he satisfies the Council that he will take such measures as shall prevent any risk of the drainage from such building passing into the tank.
4. No site shall be used for the construction of a public building, a dwelling house or a hut—
 - (a) unless the site is certified by the Chairman to be dry and well drained or to be capable of being well-drained, and
 - (b) if the site is a made-up one without the written permission of the Chairman.
5. No site shall be used for the construction of a building intended for public worship if the construction of the building thereon will offend the religious feelings of any class of persons.
6. If the building is to be constructed on a site situated wholly or partly out of the side of a hill, the applicant shall produce a certificate from such officer as the local Government may appoint in this behalf, that the measures proposed to be taken in connection with the site and the buildings are sufficient to prevent risk of injury to persons or property.

Section B.

Building Rules—Part I.—Buildings generally.

1. The floor or lowest floor of every building constructed or reconstructed from the ground level and of every new building shall be constructed at such level as shall prevent such building being effectively distinct and of the drainage being led into an existing or proposed public drain.
2. The distance between the building line and the street alignment shall not be less than 4 feet.

Part II.—Buildings other than huts generally.

1. Except with the written permission of the Chairman the foundations of buildings other than huts shall rest on natural ground.
2. The spread of the foundation shall be such that the persons on the soil, taking into account the load on the floors and terrace roof (if any) shall not in any case exceed the maximum laid down in Schedule A attached to these rules.
3. The depth of the foundation shall be such as the Chairman may approve.
4. The plinth of every such building shall be at least 1'6" above the level of the centre of the nearest street.
5. The plinth of stairs and overhalls shall be at least one foot above such level.
6. The walls of every such building shall be constructed upon proper footings.
7. The outer walls of every such building shall be constructed of brick or other substance of a hard and impenetrable nature.
8. The walls of every such building shall be properly bonded.
9. If such building has more than one storey, every wall shall be of such thickness as the Chairman may consider necessary to ensure safety, regard being had to the height of the building, the materials of which it is constructed and the purpose for which it is intended to be put.
10. The floors of every such building shall be so constructed as to carry safely the maximum load, the allowance for live load not being less than 55 pounds per square foot.
11. Every beam and girder in such building shall be supported by a breadth of brick work, stone or other solid substance sufficient to secure stability.
12. The bearing of every beam or girder on a wall shall not, without the written permission of the Chairman, be less than three-fourths of the thickness of such wall.

13. No timber or woodwork in such a building shall be placed:—

(a) in any wall or chimney-breast nearer than nine inches to the inside of any flue, stove-pipe or chimney-opening, and

(c) nearer any chimney-opening within fifteen inches from the upper surface of the hearth thereof.

14. Every hipped roof shall be constructed to carry each load; not being less than forty pounds per square foot, in addition to its own weight, as may be ascertained by the Chairman.

Part III.—Dwelling houses and other domestic buildings.

1. Except with the written permission of the Chairman, no dwelling house or other building used or intended to be used for purposes of human habitation shall be erected or added to a greater height than sixty feet measured from the level of the aerols of the street in front:—

(a) in the case of a pitched roof, up to the tie beam of the roof, and

(b) in the case of a flat-roof, up to the surface of the roof.

2. In the case of a pitched roof, the roof above that height shall rise at an angle of not more than forty-five degrees.

3. In the case of a flat roof, no parapet shall be constructed more than three feet above the maximum height specified in rule 1.

4. If the width of the street does not exceed twenty-six feet, such building shall not be erected or raised to a height greater than one and a half times the width of such street.

5. If the width of the street exceeds twenty-six feet but does not exceed forty feet, such building shall not be erected or raised to a height greater than forty feet.

6. If the width of the street exceeds forty feet, such building shall not be erected or raised to a height greater than the width of such street.

7. Where such building abuts upon more than one street, its height shall be regulated by the wider of such streets as far as it abuts upon such wider street and also to a distance of eighty feet from such wider street, so far as it abuts upon the narrower of such streets.

8. If the face of such building is set back from the street at any height not exceeding the height specified in rule 1, such building may be erected or raised to a height greater than that so specified, but not so that any portion of such building shall intersect any of a series of imaginary straight lines drawn from the line of set-back, in the direction of the portion set back, at an angle of forty-five degrees with the horizontal.

9. Notwithstanding anything contained in the foregoing rules any house which has been demolished may, within a period of three years from the date of its demolition, be re-erected to a height not exceeding its original height.

10. Every room used or intended to be used for purposes of human habitation:—

(a) shall be in every part not less than nine feet in height, measured from the floor to the under-side of the beam on which the roof rests;

(b) shall have a superficial area of not less than eighty square feet; and

(c) shall be provided for purposes of ventilation, with doors or windows opening directly into the external air or into an open verandah.

11. (a) Every building used or intended to be used for purposes of human habitation shall be so constructed that every room therein shall have at least one side abutting for the whole of its length (which shall in no case be less than 3 feet) on an open space, either external or internal. The internal open space shall in no case be less than 3 feet across in any direction. The external open space shall in no case be less than eight feet across in any direction, except when such open space abuts for the whole of its length on a street or other public space which is not less than fifteen feet across in any direction.

(b) A building shall not be held to contravene clause (a) of this rule if one side of a room abuts on an internal or external verandah, provided that the verandah in the rear abuts for the whole of its length on an open space and the width of such open space (not being less than eight feet) is double the width of the verandah.

(c) Every open space, external or internal, required by clause (a) of this rule, shall be free and be kept free from any obstruction thereon and shall be open to the sky.

(d) The side of every such room abutting on an external or internal open space or an external or internal verandah shall have at least one-fifth of its area occupied by doors, windows or ventilators, but in no case shall the area so occupied be less than 20 square feet. Where, in the opinion of the Chairman, it shall be considered necessary, additional ventilation of a type approved by the Chairman, shall be provided in the remaining sides of such room. Such ventilation shall communicate directly with the open air.

12. In the case of a building used for purposes of human habitation which was constructed before the commencement of the Act, and for which application is made for alteration or addition thereto, rule 11 (a) may be relaxed at the discretion of the Chairman, provided he is of opinion that the amount of ventilation now sufficient. The rule shall not apply to any case where the proposed alterations or additions amount to reconstructions in which case rule 11 (a) shall apply.

13. In every building used or intended to be used for purposes of human habitation which is constructed or adapted for this, the principal common staircase shall be suitably ventilated upon every story.

14. Every interior courtyard shall be raised at least one foot above the level of the centre of the nearest street, so as to admit of any drainage into such street.

15. Every interior partitioned and every such open space shall be open to the sky throughout its entire area, and no structure shall, without the written permission of the Chairman, be erected within or above or so as to project over such open space.

16. Secondary means of access to houses—Every house shall be provided with a secondary means of access in case of fire.

17. Every house shall be provided with a secondary means of access for removal of filth.

18. About parties, materials and workmanship of construction of structure, walls, roofs, chimneys, etc.—Every chimney of every new building shall be built on solid foundations and with footing similar to the footings of the wall against which such chimney is built, and shall be properly headed into such wall provided that such chimney may be built on a metal girder, or on sufficient courses of brick, stone, or other solid and combustible masonry if the work so performed will not project from the wall more than the thickness of the wall measured immediately below the corbel.

19. The inside of every flue of such building shall be properly rendered unless the whole flue shall be lined with fire-proof plating of stone or of brick one inch thick, and unless the spandrel angles shall be filled in solid with brickwork or other incombustible material.

20. The back or outside of such flue, which shall not be constructed so as to form part of the outer face of an external wall, shall be properly rendered in every case where the brickwork of which such back or outside may be constructed is less than one inch thick.

21. Every flue in such building which may be intended for use in connection with any furnace, steam-engine, or other fire constructed for the purpose of any trade, business, or manufacturing or which may be intended for use in connection with any cooking range or cooking apparatus of such building when occupied as an hotel, tavern, or eating-house, shall be surrounded with brickwork or other solid and incombustible material at least one inch thick for a distance of at least ten feet in height from the floor on which such furnace, boiler, steam-engine, or cooking apparatus may be constructed or placed.

22. The breast of every chimney of such building and the brickwork or stonework surrounding every smoke-flue and every copper-flue of such building shall be at least four and a half inches in thickness.

23. The back of any chimney opening in a party wall and the back of the flue connected therewith in any room which may be constructed for sleeping or as a kitchen shall be at least nine inches thick to a height of at least nine feet above the level.

24. The back of every other chimney opening in such building, from the hearth up to a height of twelve inches above such opening, shall be at least four and a half inches thick in the case of an external wall, and also twelve inches in the case of any party wall.

25. Every chimney, shaft, or smoke-flue of such building shall be carried upon brickwork or stonework all round at least four and a half inches thick to a height of not less than three feet above the roof, flat, or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat or gutter.

26. No iron, lead, or other metal fastening shall be placed nearer than two inches to the inside of any flue or chimney opening in such building.

27. No timber or woodwork shall be placed in any wall or chimney-breast of such building nearer than nine inches to the inside of any flue or chimney-opening or under any chimney-opening of such building within ten inches from the top or surface of the hearth thereof.

28. No wooden plug shall be given into any wall or chimney-breast of such building nearer than six inches to the inside of any flue or chimney-opening.

29. The face of the brickwork or stonework about any flue or chimney-opening of such building shall be properly plastered.

With respect to roofs, floors and staircases.

30. The flat and roof of such building, and every terrace, dormer, lantern-light, skylight, or other structure placed on the flat or roof of such building, shall be externally covered with stone, slate, metal, or other incombustible material, except as regards any door, door-lower, window or window-frame of any such terrace, dormer, lantern-light, skylight, or other structure.

31. In every new public building, the floor of every lobby, corridor, passage and landing which is not intended solely as a means of access to any private apartment, and all the supports of every such floor shall be constructed of stone or other incombustible or fire-resisting material, and shall be of adequate strength.

32. Every staircase in a new building shall be properly constructed of stone and suitable materials, and securely fixed and shall be of adequate strength.

33. In every new public building every staircase which is not intended solely as a means of access to any private apartment shall be constructed of incombustible materials, and covered by supports of incombustible material, and shall be furnished on each side with a sufficient hand-rail, properly and securely fixed.

34. In every new public building every staircase which is intended solely as a means of access to any private apartment shall be provided with a sufficient hand-rail, properly and securely fixed.

35. In every new building containing separate sets of chambers or offices or rooms constructed or intended or adapted to be tenanted by different persons, and which shall exceed fifty thousand feet in cubic content, the floor of every lobby, corridor, passage and landing and every flight of stairs in any staircase in such building, and all the supports of every such floor and flight of stairs shall be constructed of stone or other fire-resisting material and shall be of adequate strength, and the principal staircases and landings of such building shall be enclosed

with walls, not less than nine inches in thickness, constructed of good, hard, sound, well-burnt bricks, stone, or other hard and incombustible materials, properly bonded and solidly put together.

With respect to paving of yards and open spaces.

22. Every yard, or open space in a dwelling house or other building used or intended to be used for purposes of human habitation shall, where it is necessary for the protection or remedy of sanitary conditions, be properly paved—

(a) with a hard, durable, and impervious pavement of flagging or paving blocks, evenly and closely laid upon a sufficient bed of good mortar or other suitable material, and properly jointed; or

(b) with good cement concrete; or

(c) with good asphalt on a proper foundation.

and so sloped to a properly constructed channel as effectively to carry off all rain or waste water therefrom.

With respect to drains, out-pipes, sewers, etc.

23. The lowest story of every new building shall be constructed at such level as will allow of the construction of a drain sufficient for the effective drainage of such building, and of the portions of the requisite communication with any sewer into which such drain may lawfully empty, at a point in the upper half diameter of such sewer, or with any other means of drainage with which such drain may lawfully communicate.

Provided that this rule shall not be deemed to apply to a siller intended only for storage and constructed in a dry soil or in such manner as to be impervious to water.

24. (1) Every drain in a new building shall be constructed of good sound pipes formed of glazed stoneware, heavy earthenware or other suitable material.

25. Every such drain shall be of adequate size and, if constructed or adapted to be used for conveying sewage, shall have an internal diameter of not less than 4 inches and shall be laid with a proper fall and with water-tight, sockets, or other suitable joints.

26. No such drain shall be so constructed as to pass under any building except where on other mode of construction is practicable. Where any such drain has to pass under a building such drain shall be so laid in the ground that there shall be a distance equal at the least to the full diameter thereof between the top of such drain at its highest point and the surface of the ground under such building.

27. Every such drain shall be laid in a direct line for the whole distance beneath such building and shall be constructed of iron pipes completely embedded in and covered with good and solid concrete, at least 6 inches thick all round.

28. Adequate means of access shall be provided in connection with such drain at each end of such portion thereof as is beneath such building.

29. Every inlet to such drain, not being an air inlet, shall be properly lagged.

30. Every drain in a new building which may directly communicate with any sewer or other means of drainage into which such drain may lawfully empty shall be provided, within the curtilage of such building, with a suitable trap at a point as distant as may be practicable from such building and as near as may be practicable to the point at which such drain may be connected with such sewer or other means of drainage; and such trap shall be provided with proper means of access for purposes of cleaning.

31. The drains of a new building shall not be constructed in such a manner as to form in such drains any right-angled junction. Every branch or tributary drain shall join another drain obliquely in the direction of the flow of such main.

32. At the head of each of such drains and below the subsidence trap, a ventilating shaft shall be provided. This shaft shall be carried sufficiently high so as effectively to prevent any escape of foul air, from such pipe or shaft into any building in the vicinity thereof, and is no less to a free height than ten feet.

33. An air inlet shall be provided immediately above the subsidence trap which may be provided at or near the end of the house-drain and before it joins the public sewer into which the house-sewage may lawfully discharge.

34. Every pipe or shaft which may be used in connection with such drains shall be of a sectioned area not less than that of the drain with which such pipe or shaft may communicate, and not less in any case than the external area of a pipe or shaft of the diameter of four inches.

35. No drain of a new building shall be constructed in such a manner as to allow any inlet to such drain (except such inlet as may be necessary from the operation of any water-closet or any stop-sink constructed or adapted to be used for receiving within such building any solid or liquid filth) to be made within such building.

36. The out-pipe from every water-closet in such building shall be at least four inches in diameter.

37. Every out-pipe and the waste pipe from every stop-sink shall be fixed outside such building, and be continued upwards without diminution of its diameter, and (except where unavoidable) without any bend or angle being formed in such out-pipe or waste-pipe to such a height and in such a position as to be above, by means of the open end of such out-pipe or waste-pipe, an outlet for foul air, at a safe distance from windows, chimneys, or other openings.

38. Every out-pipe shall be so constructed that there shall not be any trap between such out-pipe and the drains, or any trap (other than such as may necessarily form part of the apparatus of any water-closet) in any part of such out-pipe.

53. The waste-pipe from every bath sink (not being a slop-sink constructed or adapted to be used for receiving any solid or liquid filth), or lavatory, and every pipe in such building for carrying off foul waste-water shall be properly trapped and shall be taken thence, on a natural wall of such building, and shall discharge in the open air over a channel leading to a trapped gully grating.

54. The overflow-pipe from any cistern and from every safe waterer any bath or water-closet shall be taken through an external wall of such building and shall discharge in the open air.

55. Every water-closet or earth-closet in a building shall be constructed in such a position that at least one of its sides shall be an external wall.

56. Every such water-closet or earth-closet shall have in one of its walls a window of not less dimensions than two feet by one foot exclusive of the frame and opening directly into the external air.

57. Every such water-closet shall be provided with a separate closet or flushing box of adequate capacity, which shall be so constructed, fitted and placed as to admit of the supply of water for use in such water-closet without any direct connection between any service pipe upon the premises and any part of the apparatus of such water-closet, other than such closet or flushing-box.

58. Every such water-closet shall be provided with a suitable apparatus for the effectual application of water to any pan, basin, or other receptacle with which such apparatus may be connected and used, and for the efficient flushing and cleansing of such pan, basin, or other receptacle, and for the prompt and efficient removal therefrom of any solid or liquid filth which may from time to time be deposited therein.

59. Every such water-closet shall be provided with a pan, basin, or other suitable receptacle of non-absorbent material, and of such shape, capacity, and mode of construction as to receive and contain a sufficient quantity of water, and to allow all filth which may from time to time be deposited in such pan, basin, or receptacle to fall free of the sides thereof, and directly into the water received and contained in such pan, basin, or receptacle.

60. No 'water-trap' or other similar fitting shall be constructed or fixed under such pan, basin, or receptacle.

61. No trap of the kind known as a 'D' trap shall be constructed or fixed in or in connection with such water-closet.

62. Every privy in a building shall be constructed in such a manner and in such a position as to afford ready means of access to such privy, for the purpose of cleaning such privy and of removing filth therefrom, and in such a manner and in such a position as to admit of all filth being removed from such privy, and from the premises to which such privy may belong, without being carried through any dwelling-house or public building, or any building in which any person may be, or may be intended to be, employed in any manufacture, trade, or business.

63. Every such privy shall be provided with a sufficient opening for ventilation, so close to the top as to be invisible, and communicating directly with the external air. The floor of every such privy shall be flagged or paved with level tiles or other non-absorbent material and shall be constructed so that it shall be in every part thereof at least 8 inches above the level of the ground adjoining such privy, and so that such floor shall have a fall or inclination towards the door of such privy of half an inch to the foot.

Part IV.—Application for approval of site for, and for permission to construct or reconstruct, buildings other than huts

1. Every application for approval of a site for a building and for permission to construct the work of constructing or reconstructing such building shall be submitted in the form given in Schedule B attached to these rules (to be supplied by the Chairman free of charge).

2. Every such application shall be accompanied by a site-plan in duplicate drawn to a scale of not less than one-fifth of an inch to a foot.

3. Every such site-plan shall show

- (a) the boundaries of the site,
- (b) the position of the site in relation to neighbouring streets,
- (c) the name of the street in which the building is proposed to be erected,
- (d) the position of the building, and of all other buildings (if any), which the applicant intends to erect upon his contiguous land referred to in clause (a), in relation to (i) the boundaries of the site, (ii) all adjacent streets, buildings and premises within a distance of 40 feet of the site and of the contiguous land (if any) referred to in clause (a),
- (e) the areas of access from the street to the building, and to all other buildings (if any) which the applicant intends to erect upon his contiguous land referred to in clause (a),
- (f) the position and approximate height of all other buildings within 40 feet of the site,
- (g) the position, and dimensions of proposed drains, cess-pools, stables, outsheds, cow-houses, wells and other appurtenances of the building,
- (h) the free passage or way in front of the building,
- (i) the space to be left about the building to secure a free circulation of air, admission of light, and access for scavenging purposes,
- (j) the width of the street (if any) in front, and of the street (if any) at the rear, of the building, and

(b) such other particulars as may be required by the council.

4. Every application to construct or reconstruct a building shall also be accompanied by a plan in duplicate of the proposed building showing both elevations and sections and drawn to a scale of not less than one-eighth of an inch to a foot.

5. Every such plan shall show

- (a) the depth and width of the foundations of the building;
- (b) the level of the lowest floor of the building; and
- (c) the level of all courtyards and open spaces in the building or premises and the plot level of buildings with reference to the level of the centre of the nearest street.

6. Every such application shall further be accompanied by a specification giving the following information:—

(a) the materials and method of construction to be used for external walls, party-walls, foundations, roofs, floors, fire-places and chimneys;

(b) the sewerage, which roof and house-drainage and the surface drainage of the site will be disposed of;

(c) the manner, if any, in which it is proposed to pave the courtyard and open spaces in the building or premises and the steps to which the surface to be made in each case;

(d) the means of access that will be available to emergency for the cleansing of privies;

(e) the purpose for which it is intended to use the building;

(f) the means of ingress and egress, if the building is intended to be used as a dwelling house for two or more families or as a place for carrying on any trade or business in which more than twenty people may be employed, or as a place of public resort; and

(g) such other particulars as may be required by the council.

7. The plans shall be signed by the applicant.

8. All information and documents which it may be found necessary to require, and all objections which it may be found necessary to make, before deciding whether a site should be approved for a building, or whether permission to construct or reconstruct a building should be given, shall be respectively required and made in one requisition, and the applicant shall be apprised thereof at the earliest possible date.

9. Within thirty days from the date of receipt of an application under section 197 of the Madras (District) Municipalities Act, 1920, the Chairman may require the applicant

(a) to furnish him with any information or documents referred to in these rules which has not already been given in the documents forwarded; or

(b) to satisfy him that there are no objections which may lawfully be taken to the approval of the site.

10. If any information or document required under rules 8 and 9 is, in the opinion of the Chairman, incomplete or defective, he may, within thirty days from the date of receipt of the same, require further information or documents to be furnished.

11. If any requisition made under rules 8 and 9 is not complied with within three months, the application under section 197 shall be deemed not to have been made.

12. When the Chairman has approved any site-plan or plans permission to execute any work, he shall sign such site-plan or plan of the work, as the case may be.

13. One copy of the site-plan and one copy of the building-plans shall be kept at the site of the building at all times when building operations are in progress and such plans shall be available at all such times for the inspection of the Chairman or of any officer authorized by him in that behalf.

Part V.—Huts generally.

1. Except with the written permission of the Chairman no portion of a hut shall be placed within 5 feet of a masonry or wooden building; provided that this rule shall not preclude the construction of huts in compounds in any case where masonry or wooden out-houses would be permissible.

2. No hut shall be of more than one story nor exceed 12 feet in height, measured from the top of the plinth to the junction of the eaves and wall.

3. The plinth of a hut shall be raised at least 1 foot above the level of the centre of the nearest street or passage.

Part VI.—Huts on land exclusively set apart for the same.

1. Huts on land exclusively set apart for the same shall be built in continuous lines, in accordance with an alignment to be prescribed by the council.

2. Where an alignment prescribed under rule 1 does not correspond with the alignment of a street, a passage of at least 20 feet, measured from eave to eave, shall be left between the rows of huts abutting on such prescribed alignment.

3. All passages referred to in rule 2 shall remain private property, subject to a right in the municipal authorities to send carts along them or otherwise make use of them for any of the purposes of the Act.

4. Notwithstanding anything contained in rule 1, huts may, with the special sanction of the council, be built so as to form an open courtyard, comprising at least one-fourth of the whole area occupied by the huts and courtyard.

5. There shall be between any two huts a space of at least 3 feet, measured from eave to eave.

Part VII.—Applications for permission to construct or reconstruct a site.

1. Every application for permission to construct or reconstruct a site shall be submitted in the form given in Schedule C attached to these rules (to be applied by the Chairman free of charge).

2. If it is intended to use the lot or part thereof for any of the purposes specified in Schedule V of the Act or in a statute, not provided or otherwise, the lot shall be expressly stated in such application.

3. Every such application shall be accompanied by a site-plan showing the lot, the means of access thereto from the street, and such other particulars as may be required by the Council.

4. The Chairman may require the applicant—

(a) to furnish him with any information which has not already been given, or

(b) to satisfy him that there are no objections which may lawfully be taken to the grant of permission to execute the work.

5. If any information or plan required under rules 2. to 4. is, in the opinion of the Chairman, incomplete or defective, he may require further information or a fresh plan to be furnished.

6. If any requisition made under rules 4. and 5. is not complied with within one month, the application received under section 845 shall be deemed not to have been made.

Part VIII.—Application of rules to alterations of, and additions to, buildings.

1. Rules 1 to 7 of Part IV or rules 1 to 6 of Part VII, as the case may be, shall not be applied in the case of any alteration of, or addition to, a building unless one or more of the following works is or are undertaken, namely:—

(a) the construction of a roof or an outcrop or party-wall,

(b) any repairs to the building which involve the reconstruction of a lift-shaft or a chimney after the same has been entirely or in great part demolished,

(c) any other alterations of the internal arrangements of a building which affect its drainage or stability,

(d) the addition of any building, room, cub-house or other structure.

2. If, in any case of emergency arising from causes beyond his own control, any person desires to undertake without delay any of the works referred to in rule 1, he may send to the Chairman an application for provisional permission to proceed with the work.

3. Such application shall contain an explanation of the emergency and a general description of the work proposed to be undertaken.

4. Within ten days from the date of receipt of any such application, the Chairman shall, by an order in writing, either grant or refuse to grant provisional permission to proceed with the work.

5. If, within such period, the Chairman has neither granted nor refused to grant such provisional permission, the same shall be deemed to have been granted.

6. Whenever such provisional permission is granted, and in any case provided for by rule 5, the applicant shall, within ten days of the expiry of the period referred to in rules 4 and 5, send to the Chairman a regular application for permission to execute the work; and, if he fails to do so, the provisional permission shall be deemed to have been withdrawn.

Part IX.—Exempted buildings.

The following buildings shall be exempt from the operation of the above rules.

(a) Any Government building or building intended to be used for Government purposes.

(b) Any building which may be erected or may be intended to be erected by the Local Government in accordance with such plan and in such manner as may be approved or directed and in pursuance of any statutory provision in that behalf.

(c) Any building erected or intended to be erected for the use solely as a temporary hospital for the reception and treatment of persons suffering from any dangerous disease.

*Schedule C.**Rules regarding wells under section 101 (1).*

No piece of land shall be used as a site for the construction or reconstruction of a well the water of which is intended for drinking purposes:—

(a) if the Chairman considers that the site is insanitary or that it is dangerous to construct a well thereon;

(b) if there is a washage pit or cess-pool at the site, the water of which is allowed to stagnate and soak into the soil;

(c) if the site lies on the line of drainage of a burial or burning ground or of a place where an effluvia is emitted;

(d) if the land has been previously used as a site for a latrine;

(e) if the land has been used as a dumping ground.

2. Every well intended for the supply of drinking water shall be sunk at least six feet below summer water level.

3. The interior of every such well shall be rendered with cement mortar from the top down to summer water level.

4. The interior of every such well shall be surrounded by puddle clay at least two feet thick from the top down to the point wherefrom the well has been sunk.
5. Every such well shall be provided with a parapet wall at least two feet high.
6. Every such well shall be provided with a masonry platform at least four feet wide.
7. Every such well shall be provided with a catch drain all round the platform and a drain to lead the waste-water therefrom of such length as the Chairman may require.
8. Every person who intends to construct or reconstruct a drinking water well shall submit to the Chairman an application in the form given in Schedule B attached to these rules, to be supplied by the Chairman free of charge. Such application shall be accompanied by a plan of the site showing particulars of the surroundings, the nature of the soil and the nearest water head. He shall not proceed with the construction of such well until the Chairman sanctions his application or unless such application may, under rule 8, be deemed to have been sanctioned.
9. The Chairman shall either sanction the application or reject it or call for further information; and if no intimation is sent to the applicant within one month from the date of receipt of the application such application shall be deemed to have been sanctioned.

SCHEDULE B.

Every person who shall offend against any of the rules in sections A, B and C shall be liable for every such offence to a penalty of rupees one hundred and, in the case of a continuing offence, to a further penalty of rupees ten for each day after written notice of the offence from the Chairman.

SCHEDULE A.

(See Rule 2, Part II of Section B, Building Rules.)

Schedule of rate-bearing power of various kinds of soil.

| Description of earth. | Approximate rate estimated to be borne per sq. ft. |
|---|--|
| Loam, mosses, quick-sand, peat-moss, marshland, silt | 0 to 0.25 |
| Hard peat turf | 0 to 0.25 |
| Soft, wet, peaty or muddy clay, and swampy clay | 0.25 to 0.35 |
| Alluvial deposits of moderate depths in river beds, etc. | 0.25 to 0.35 |
| Detrital clay in beds of rivers | 0.35 to 1.00 |
| Alluvial earth, loams and heavy soils (clay and 48 to 72 per cent of sand) and clay loams (clay and about 30 per cent of sand). | 0.75 to 1.00 |
| Mud clay | 1.00 to 1.75 |
| Compact clay, nearly dry | 2.00 to 2.50 |
| Upheaved and interstratified beds of different sand clays | 3.00 |
| Stiff clay mixed with very fine sand. | 4.00 |
| Dry compact clay of considerable thickness | 5.00 to 5.50 |
| Stiff yellow clay containing only the normal quantity of water. | 4.00 to 5.00 |
| Stiff blue clay, sand and laminated mud | 5.00 to 5.50 |
| Loose sand in shifting river beds, the rate load increasing with depth. | 1.50 to 2.50 |
| Stiff sand of uniform and firm character in a river bed, above flood mark and at depths below 72 feet. | 3.50 to 4.00 |
| Compact sand | 2.00 to 3.00 |
| Compact sand, prevented from spreading | 5.00 to 7.50 |
| Ordinary gravel and sand | 2.00 to 3.00 |
| Ordinary gravel and sand but compact, dry, and prevented from spreading. | 4.00 to 6.00 |
| Very firm, compact sand at a depth not less than 20 feet, and compact sandy gravel. | 6.00 to 7.00 |
| Soft shale, sandstone and conglomerate | 1.00 to 1.50 |
| Hard white shale | 2.50 to 4.00 |
| Pure shale, prevented from the weather, and clean gravel | 5.00 to 6.00 |
| Compact gravel | 7.00 to 8.00 |
| Ordinary rock | From 9.00 upwards. |

No. 1178.—Under section 290 of the Madras Local Boards Act, 1922, the following draft rules which the Local Government proposes to make in exercise of the powers conferred on them by sub-section (1) and (2) of section 137 of the said Act for declaring vaccination compulsory and for enforcing the same are published for general information.

Notice is hereby given that any suggestion or representation which any person may desire to make respecting the provisions of these draft rules will be considered if submitted within six weeks from the date of publication of this notification. None received after that period will be considered.

DRAFT RULES FOR DECLARING VACCINATION COMPULSORY AND FOR ENFORCING IT.

1. In these rules

(i) "Parent" means the father or mother of a legitimate child and the mother of an illegitimate child.

(ii) "Guardian" means any person in whom the care, custody or control of any child falls by law or by natural right or recognised usage or who has accepted or assumed the care, custody or control of any child or to whom the care or custody of any child has been entrusted by any authority lawfully authorised in that behalf.

(iii) "Vaccinator" means any medical practitioner registered under the Madras Medical Registration Act, 1914, or any practitioner appointed by the local board or any person who holds the written permit-¹ of the President of the Local Board to vaccinate within the limits of such board.

(iv) "Child" means a boy under twelve years of age or a girl under ten years of age.

(v) "Unvaccinated child" means a child who has not been protected from smallpox by having had that disease either externally or by inoculation or by having been successfully vaccinated and who has not been certified in the manner hereinafter provided to be exemptable to vaccination.

(vi) "Vaccination depot" means a place or building where by direction of a local board public vaccination is performed.

(vii) "President" means the President of a local board in a revenue area, and the President of a union board in union areas.

(viii) "Village" includes its hamlets.

2. Vaccination shall be compulsory—

(i) in all villages, and

(ii) in such other areas where vaccination may by notification be declared as compulsory by the Local Government or by the District Board. Such notification shall be published in the District Gazette.

3. The parent or guardian of any vaccinated child who is more than six months old and who has resided for one month within the limits of a local board where vaccination is compulsory shall take or cause the child to be taken to a vaccination depot for vaccination at the time of the vaccination week which shall be notified by the vaccinator or any person duly authorised by the President in that behalf, or shall produce its vaccination by a vaccinator.

4. The president or any person duly authorised by him may direct the vaccination of any child under six months of age when it is supposed to interfere in consequence of madness in or within a radius of one hundred and fifty yards from a house infected by smallpox.

Provided that no parent or guardian shall be bound to take or cause to be taken any child in order to procure its vaccination or inspection beyond the limits of the village or within which such parent or guardian resides.

5. The parent or guardian of an unvaccinated child whose residence is changed from an area under the control of a union or union board where vaccination is compulsory to a place either within or without that area or from any place within the limits of such area to a place within that area shall, within one month of such change, notify the change to the village headman or any other officer authorised by the President in that behalf, furnishing full particulars as to the address of the child at the new residence.

6. (i) A vaccinator to whom a child is taken for vaccination shall, if he finds that such a child is not in a fit state of health to be vaccinated, deliver to the child's parent or guardian a certificate to the effect that the child is then in a state unfit for vaccination. The said certificate shall remain in force for the period specified therein not exceeding six months and may be renewed, if necessary. The scope of certificates shall be carefully examined in the commission.

(ii) If the vaccinator is of opinion that the child is in a state fit for vaccination he shall forthwith vaccinate the child and deliver to the parent or guardian a vaccination certificate stating that the vaccination was performed and that on which the child is to be inspected for maintaining the mark of operation.

7. (i) On the date specified in the notification and at the time appointed by the vaccinator, the parent or guardian of every child which has been vaccinated under the last preceding rule shall take or cause it to be taken to the place appointed for inspection.

(ii) If the inspecting officer finds or suspects that the vaccination has been successful, he shall give to the parent or guardian a certificate to that effect.

(iii) In the event of the vaccination being unsuccessful such parent or guardian shall, if the inspecting officer so directs, cause the child to be again vaccinated and subsequently inspected as on the previous occasion.

8. If the inspecting officer is of opinion that a child who has been three times successfully vaccinated is intractable to vaccination, he shall deliver to the parent or guardian of such child a certificate to that effect.

9. Any parent or guardian who procures the vaccination of an unvaccinated child by a vaccinator not employed by a local board shall forward a certificate of successful vaccination given by such vaccinator to the President or any person authorised by him in that behalf within fifteen days from the date of vaccination.

DEPARTMENT OF AGRICULTURE.

THE COTTON CROP OF 1920 IN THE REPORT.

(On an average of the five years ending 1919-20 the area under cotton in the Madras Presidency has represented 11.2 per cent of the total area under cotton in India.)

The total area estimated as sown with cotton up to 25th November 1921 in this Presidency is 1,861,468 acres, which represents a decrease of about 16 per cent as compared with the area sown in 1919-20.

1. In the north, large extents have been sown with cotton as a result of the early north-west monsoon in October and November, but the total extent in the Coimbatore and North-east and Western tracts are still 22 per cent and 34 per cent respectively less than corresponding areas of last year.

2. In the south, there has been an increase in the total area sown due to the favourable season and the rise in prices at the sowing season.

There are indications of a further decrease in the area under Gambusia grown as a dry crop.

3. The total yield of the area sown up to date is estimated at 695,000 bales. It is however, too early to estimate this with any accuracy, but it is certain that in the "North-east" and "Western" tracts it will not exceed 75 per cent of the normal area yield. The sowing season has been very late and much of the crop was not sown till November.

In the south, the yield should be above normal if the season continues favourable.

4. The figures for the State of Bangalore have been included.

5. Figures by districts are given below.

EXAMINATION FOR THE GRANT OF CERTIFICATES OF COMPETENCY
TO ELECTRIC WIREMEN.

Results of the Experiment.

Of the seventeen candidates who appeared for the examination held at the Government Trades School, Mysore, on the 23rd November 1922, the following six candidates have passed:-

- (1) P. Pandey, Wireless, Public Works Department, Government House, Calcutta.
- (2) P. Dasgupta Mahapatra do do.
- (3) V. R. Nataraj, Khairat, Electrical Engineer, Public Works Department, Madras.
- (4) R. Ramaprasad, Wireless, English Electric Company, Madras.
- (5) Mahomed Hafeezullah, Wireless, English Electric Company, Madras.
- (6) E. Ganesan Nayudu do do.

The men have failed.

Executive Director

The examination was conducted by...

- Mr. A. F. Clay of the Madras and Southern Mahratta Railway.
Mr. H. D. Baring of the Comptrol Engineering Company, Madras.
Mr. E. J. B. Greenwood, Electrical Inspector to Government, Madras.

1. (c) To begin with, all candidates were set to make a joint in ordinary V.I.R. jacket and supported with numerous years that work was a needed improvement especially in the midwest. The majority of the candidates however had little access to the proper methods of removing the various insulation coverings of a mile, and the rubber taping was several days carried well over the ends of the insulation.

(3) The student who tests wire gives such as connecting up lights, connecting up a motor with its starter and main switch, and testing the insulation resistance of various circuits; whilst the connecting work was done fairly well the insulation testing could be satisfactorily carried out only by a few candidates.

(c) The general knowledge of the majority of the candidates was good.

(c) In general the work of the architect was of a decidedly higher standard than is previous

5. The witnesses feel that there is a tendency on the part of the candidates and their employers to consider the examination as a test for men of the foreman or experienced grade, whereas the examination is intended solely for practical working men.

AUDIT ORDER ON THE ACCOUNTS OF THE MADRAS PROVINCIAL CO-OPERATIVE UNION FOR YEAR ENDING 31st JUNE 1921.

The accounts of the Madras Provincial Co-operative Union for the co-operative year ending 30th June 1921, as audited by M. R. S. M. Rajagopal Acharyar are passed. Statements of (1) Receipts and Disbursements, (2) Profit and Loss and (3) Assets and Liabilities furnished by him are appended.

2. The year under review is the eighth of the working of the Union. During this year the Union has succeeded in by-laws promulgating itself into a society, viz. trading Union, (3) Local Union, (4) District Union, (5) Provincial Union which have jurisdiction over the whole Presidency and admit registered societies as members. This concentration was however not given effect in before the close of the year under review.

3. In the year under review there were no fresh admissions of members. The total amount of shares issued with the Union was Rs. 7,100-10-0. The full share to be returned in the respective members as the various contribution proceeds for no share capital.

4. The amount of Reserve fund at the beginning of the year was Rs. 1,000-10-0 and a sum of Rs. 4,000-0-0 was received as subscription for the same. The entire amount of Rs. 5,000-0-0 was spent towards the establishment and consumption charges for during the balance during the year under review. A sum of Rs. 700-10-0, was also paid in various other receipts and it should be a charge upon the next year's income.

5. The amount to the credit of the conference fund at the beginning of the year was Rs. 275-0-0. A sum of Rs. 700-0-0, was received during the year and a sum of Rs. 275-10-0 was returned in connection with the Provincial Co-operative Conference. The year worked at a net profit of Rs. 55-0-0 during the year under review. Under by-law 31 of the Union (old) one-fourth of this, i.e. Rs. 13-7-6 shall be added to the credit of the reserve fund. The balance shall be utilized in the first instance towards the distribution of the dividend at a rate not exceeding 25 per cent, and the balance, if any, shall be treated as a part of the fund and by-law 31.

6. The amount of reserve fund of the Union kept in the Madras Central Urban Bank on the last day of the year under review was Rs. 100-10-0. Adding to this the amount of Rs. 21-0-0, kept in the general funds of the Union and the reserve fund of the year under review is Rs. 121-0-0, the total reserve of the Union will be Rs. 121-0-0.

7. The audited by-laws do not provide for reserve fund. The recommended body will have to decide on the disposal of the reserve fund already accumulated. The amounts relating to the balance have to be submitted and a clear account of the said old liabilities made out.
